EXPERIENCES 2023

Tenuta Casadei is located in Suvereto, immersed in the typical Alta Maremma Tuscan landscape and just a hair's breadth away from the sea. Here Stefano Casadei and Fred Cline have shared a project with nature at its center, respecting and protecting an environment which is rich in biodiversity, planting international vines capable of expressing all the character of the variety.

It can be explored on foot or by horse drawn carriage, with a guide or on your own, following an educational path that reveals all the secrets of an enchanted ecosystem where the Biointegrale philosophy characterizes every decision.
